

# 6 Stage Reverse Osmosis System

An ISO 9001 - 2008 Certified Company

*The Ultimate protection  
for you and your family!*

With 6 stage Natural RO & UF System, you can get pure and safe drinking water with necessary minerals and salts by eliminating harmful bacteria, virus, dust, silt, bad odor, color and hard metals. And you realize the power of saving money on medical bills over water born diseases.

AN ISO 9001-2008

**Quality Product  
for Quality Water**

## 6 Stage Purification : RO+UF

## Technical Specifications

Purification capacity	10-15 Ltr/hr
Max. duty cycle	75 Ltr/Day
Storage tank capacity	9 Ltrs.
Filter cartridges	Sediment, Post & Pre Carbon, UF & Membrane
RO membrane	80 GPD (1 No)
Min. inlet Water pressure	0.3 kg/cm <sup>2</sup>
Input Voltage	230 /50 Hz
Operating Voltage	24 Volts DC
Input TDS	Upto 2000 ppm

## Features

- Economic Model.
- Non-Toxic filter Housings made up of food grade polymers.
- Converts impure water to sweet pure drinking water.
- Food grade transparent water storage tank made up of poly carbonate material.
- Stored water available on demand, even in absence of electricity.
- Low cost of maintenance and electrical consumption.
- **Treat the water of bore-well and municipal water and make it drinkable.**
- Use RO Technology that effectively eliminate the majority of bacteria, viruses and other harmful micro organisms.
- Enhances the taste of water.
- Eliminates impurities that causes health problems like kidney stones, indigestion, gastric problems and many more.

### The RO Technology

Nectar water purifier is based on the unique 0.0001 micron membrane Technology that removes even Dissolved Impurities while retaining essential natural minerals and offers double purification of RO followed by UF.

### Applications

- For mounting on kitchen wall/Table top
- Suitable for raw water from all types of sources.
